DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 31 January 2005 was filed after the mailing date of the Notice of Allowance on 06 October 2004. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

2. Claims 1-40 are allowed over the Prior Art of record, as stated in a previous Office Action. The Examiner has carefully reviewed the various IB Documents and Papers (PCT/US2004/023018) generated by the EPO regarding the instant claims submitted by the Applicant, and does not agree with the arguments presented. The instant claims differ from the Prior Art primarily due to the fact that a “fluid inducer” is being tested/evaluated, the “fluid inducer” being not simply a “relief valve.” In particular, a “fluid inducer” is employed to supply lubrication and cooling during the machining of parts (i.e. tool holders) while the parts are being cut/fashioned. A “relief valve” is a device that releases pressurized fluid/gas when a certain predetermined limit is reached, and as such, a completely different “valving” process. The Examiner has found no reasonable Prior Art references reading on the instant invention.
